**Cutter:** HSS (Super Rapid Steel)

**Carriage runs:** 30 mm - 1.18" axis X  
50 mm - 1.97" axis Y, 27 mm - 1.06" axis Z

**Dimensions:** Width: 318 mm - 12.52",  
Depth: 413 mm - 16.26", Height: 340 mm - 13.38"  
(with tablet and support: 522 mm - 20.47")

**Mass:** 19 Kg

## Practical and user-friendly

Futura One makes your job easier. The machine movements on 3 axes are entirely automated, while the tablet-integrated software guides you step-by-step in all key cutting operations: from key profile selection and key clamping to the choice of the right cutter. Led lighting of the working area changes colour according to the machine's status for immediate process control.

## Innovation at the touch of a screen

The 10" touch-screen tablet integrates Silca Key Programs software's main data and functions, allowing you to search through the

Integrated tablet with Silca software's main data and functions

largest key database available on the market and keep it updated over time through the internet.

The tablet support is tilting and adjustable in height: it can be fixed on top of the machine or placed on your desk to guarantee the highest levels of comfort while working.

## Space-saving and portable solution

Keep the entire Silca database and key cutting expertise at hand. Futura One's compact dimensions, reduced weight and ergonomic grip below the machine body make it easy to carry and suitable for small-sized shops. The see-through safety shield slides within the machine body to reduce encumbrance to the minimum.

Optimized cutting station for laser and dimple keys

## Optimized and flexible cutting station

Laser and dimple keys are decoded by electric contact. The clamp with interchangeable jaws extends the range of keys duplicated, while reducing the costs of optional accessories. Calibration is automatic for all types of keys.

## Silca design and quality

Futura One combines design and quality. Characterized by modern, clean-cut lines and a neat-looking shape, the machine is made of select components and first-rate materials and applies the most cutting-edge technologies, complying with the highest standards of Silca quality.
